

REACH - Kemisk Regulativ

REACH, Regulativ nr. 1907/2006 om registrering, vurdering, autorisering og begrænsning af kemikalier.

REACH kræver at fyldestgørende information om særligt farlige stoffer (SVHC), som indeholdes i artikler (produkter) i koncentrationer over 0,1% vægt pr. vægt (w/w), bliver oplyst for at gøre sikker brug af produktet muligt.

Nedenstående tabel omfatter 240 REACH SVHC-emner, som blev opdateret af ECHA 14. januar 2024. (<http://echa.europa.eu/candidate-list-table>)

Brother-produkterne, som er opført i tabellen nedenfor, indeholder SVHC i komponenter og i koncentrationer over 0,1 vægtprocent. Detaljeret information kan findes i ECHAs SCIP-database. (<https://echa.europa.eu/scip-database>)

Instruktioner for hvordan du bruger SCIP-databasen findes på "Hjælp"-siden ved at klikke på ikonet 

SCIP-databasen kan søges ved at bruge enten "Identifier" eller "General product Name". Hvis flere produkter vises, vælges den passende model med hensyn til den region, hvor produktet blev købt.
